Need of Education

Education is the key to the development of any country/society/family. In a family, when all of its members are educated it ensures smooth and successful functioning. Likewise, in a country where its citizens are educated, they will be able to solve their own and the nation's problems better with knowledge acquired through good education. Education also creates awareness against social issues such as corruption, child labour, racism, etc. Hence, with the tool of education, people will be able to plough away these social evils and help create a society based on honesty, equality and justice. Education also creates awareness against health and various dangerous diseases. Thus, with the above mentioned benefits, we can say when a nation's people are educated, it will not only be a boost for the development of the country, but also become a boost in it's people's own lives.
